The table above explains which year groups will undergo the FFI transition in each phase across the next 4 academic years. The current phase transfer year groups (where children generally change settings i.e. from nursery to primary, and primary to secondary) have been prioritised.

For example, if your child is currently in Year 6 (in the 24/25 academic year), their transition will happen in the 24/25 academic year in Phase 1 as they will be transitioning to secondary school.

As another example, if your child is currently in Year 4 (in the 24/25 academic year), their transition will happen in the 26/27 academic year in Phase 2, as at that point they will be in Year 6 transitioning into secondary school.
